CONSTRUCTIONS

CAPABILITY STATEMENT

CAPABILITY STATEMENT COVER LETTER

OUR DIFFERENCE

Bacchus Constructions is a high-end residential construction company specialising in exceptional architecturally designed homes in some of Melbourne's most prestigious suburbs.

Bacchus purposely focus on a smaller number of projects at any given time, allowing the director and management to give every project the time and attention that it needs and deserves. This is achieved by making the conscious decision not to extend into any form of commercial works, volume building or work for developers. Every one of Bacchus' projects has a full-time site manager and his right hand man- leading hand carpenter who are both solely dedicated to that specific project.

The Bacchus team all share the same values and standards and are proud of each and every home we build and relationships developed with our clients and architects.

OUR EXPERTISE & EXPERIENCE

Bacchus Constructions has almost a decade of extensive experience in creating luxury residential projects, including basement construction, proving itself to be more than capable of delivering any project to the highest level of detail.

Building your home is one of the biggest undertakings that you will take on in your life, both in time and financially. Bacchus can offer a stress-free experience and enjoyable building process right from the tender and value management process through to the final handover of your exceptional home.

Bacchus site managers have varying degrees of experience ranging from 35 years down to our most enthusiastic go getter with 10 years' experience. Bacchus has an ongoing in-house carpentry crew, they are well-presented and well-mannered men with strong work ethics and vast skill sets. An important part of the Bacchus team is our valued group of loyal subcontractors we have used project after project and trust to never let us down. Everyone within the company takes 100% pride in our work and this is what sets us apart from the rest.

CAPABILITY STATEMENT

OUR DIRECTOR

Tim Fyffe, managing director of Bacchus Constructions prides himself on being one of Melbourne's top prestigious home builders. Prior to creating Bacchus Constructions, Tim was privileged to have completed his entire apprenticeship on a sole build within South Yarra which recently sold for just under \$40m. It was here he was fortunate to have been taken under the foreman's wing and given a great start on the ladder in the construction industry. When finished his apprenticeship, Tim moved to working with **Davies & Henderson** as a young site manager and from here he went to **VCON** as a site/project manager further developing his management skills after spending almost 5 years with each of these renowned Melbourne building companies.

In all, Tim has 25 years' experience in construction, beginning as a carpenter and quickly progressing to a site manager/ foreman and project manager in high-end builds within some of Melbourne's most sought-after post codes. Under Tim's leadership Bacchus Constructions has managed to successfully complete a number of remarkable homes and in the process has built real and positive relationships with clients, contractors, consultants and architects that will last well into the future.

OUR FINANCIALS

Bacchus Constructions' financial position is healthy and strong. We are cashflow positive and have retained earnings in the company. We have no requirement for overdrafts or business loans and take on work consciously to ensure we are neither under nor overcommitted. Bacchus generally runs at any one time 5 projects ranging in value from \$1m to \$10m.

Bacchus Constructions' Domestic Building Insurance currently holds a maximum eligible insured total value of residential construction of \$25,00,000 with a new single dwelling construction or alterations/ additions/ renovations – structural construction category limit of \$10,000,000 with the ability to obtain an individual increase for larger projects.
